Career Objective –

Computer Science & Engineering undergraduate specializing in Generative AI (in association with IBM) with strong foundations in Java Object-Oriented Programming and full-lifecycle software development. Proven track record of building data-driven applications, implementing object-oriented design patterns, and applying AI/statistical methodologies to real-world problems. Seeking a Software Engineering role to build scalable systems and intelligent applications.

EDUCATION –

- **10th**- DR.DY.PATIL Internation school , Patna , Bihar
- **12th**- Satyam Internation school , Patna , Bihar
- **UG** – Jain university , Bangalore , Btech CSE gen (ai) in association with IBM (2nd year)

TECHNICAL SKILLS –

Programming: Python, Java, C (Basic)

Web Technologies: HTML, CSS, JavaScript (Basic)

Tools: Git, GitHub, VS Code , Antigravity

Concepts: Data Structures, Algorithm

PROJECTS

1. Digital Hospital Patient & Lab Report Management System

Technologies: HTML, CSS, JavaScript, Python, Flask, MySQL, PDF Generation

- Developed a web-based hospital portal to reduce manual patient record management and paperwork.
- Enabled hospital staff to digitally enter patient details and upload/scan laboratory reports.
- Implemented secure storage and PDF generation for maintaining organized and easily accessible patient records.
- Reduced repetitive manual data entry, improved record accessibility, and minimized the possibility of documentation errors.

CERTIFICATIONS

- **Oracle Java Foundations — LinkedIn Learning**
Covered core Java programming concepts, syntax, and fundamental programming principles.
- **Java SE 11 Developer (1Z0-819) Cert Prep — LinkedIn Learning**
Prepared for Java SE 11 development concepts and strengthened Java programming skills.
- **Java: Database Integration with JDBC — LinkedIn Learning**
Learned Java Database Connectivity (JDBC) for connecting Java applications with databases.

- **Object-Oriented Programming with Java — LinkedIn Learning**
Developed understanding of object-oriented programming concepts using Java.
- **Java Essential Training: Syntax and Structure — LinkedIn Learning**
Strengthened Java fundamentals, including programming syntax and code structure.
- **Software Foundation Course – C++ — IBM Career Education Program**
Successfully completed the C++ foundation course, covering fundamental programming concepts and software development basics.
- **Computer Architecture Essentials — LinkedIn Learning**
Completed training in computer architecture fundamentals, covering programming languages and computer hardware concepts.

HACKATHON

- **Smart India Hackathon 2026 – Internal Hackathon — JAIN (Deemed-to-be University)**
Participated in the Smart India Hackathon 2026 Internal Hackathon and gained experience in teamwork, problem-solving, and developing a technology-based solution.

SOFT SKILLS

Communication | Problem Solving | Teamwork | Time

LANGUAGE

English (fluent) | Hindi (fluent) | Maithli (fluent)
